4. OVERVIEW OF THE ECONOMY AND ANALYSIS

As per the latest GDP growth estimates, Indian economy grew by 7.4% in FY15 compared to 6.9% in FY14, mostly driven by improved economic fundamentals and revision of GDP methodology calculation. Even inflation showed signs of moderation, a welcome sign - wholesale price and consumer price inflation declined. Reduced inflation, falling crude oil

prices, stable Rupee, improved purchasing power and consumer spending, higher capital inflows supported by the government policy reforms have already put India on an accelerating growth track and improved the business outlook.

Reforms like e-auctions of coalmines and telecom, FDI hike in insurance, speedier regulatory approvals etc. will be critical growth enablers to de-bottleneck stalled projects, improve the investment outlook and the ease of doing business in the country. Reforms currently underway such as GST implementation, Amendment on Land Acquisition Bill, Labour Reforms, etc. are expected to provide the requisite thrust for growth in the medium-term.

Opportunities and Challenges

Being a major employer in India coupled with strong industry linkages with the rural economy augurs trading activities as one of the most significant sectors with an incremental growth potential. Rural economy has seen a spurt in income levels the last few years and this is the right time to promote trade and investment. Being one of the key focus sectors under the Government's "Make in India" campaign is a testimony to the huge growth potential the trading and investment activities. Globally, favourable trade policy reforms would also allow the trade and investment to expand its trade partners, improve its export competitiveness and contribute substantially to the nation's income.

However, the trading and investment are constrained with many challenges including rising costs (wages, inventory and interest costs), intensified competition from other low cost countries and political risk to implement the reforms like GST etc. Such issues need to be addressed to result in unlocking maximum growth potential.
